1. The following is an examiner's statement of reasons for allowance: the Declaration by Dr. Menk filed July 31, 2006 provides evidence that the positive addition of magnesium required by the instant claims results in a clear and unobvious distinction between the microstructure of the prior art and the spheroidal graphite as presently claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
